Download BlueSpice free

Packages

For the installation of BlueSpice free two different packages are available for download. Please, always check the [system requirements](#) before installing.

- **BlueSpice without installer:**
this package can be installed on an already existing MediaWiki. Please, make sure that you are using a compatible version of MediaWiki.
- **BlueSpice with installer:**
this package already includes the appropriate MediaWiki in the recommended version. With the installer the installation process becomes much easier.

Download possibilities

You have two way to download your desired BlueSpice free package:
